DIARY NOTES

DD/S

27 August 1965

I met with John Clarke and the BPAM Staff to present the DD/S Fiscal Year 1967 Budget. A series of questions were raised on the Offices of Communications, Security, Finance, Logistics and Medical Services. All of the questions were answered to the satisfaction of BPAM. I was advised that I will have to explain to the Bureau of the Budget the DD/S Support Career Staff that we are setting up since they will have questions in this area. BPAM questioned the sufficiency of the Office of Security request for an additional six people to meet the increased re-investigation program and the increase in security clearance cases. After discussion I asked, with the approval of BPAM, that the Office of Security revise upward its estimate for submission to BPAM. (We talked in terms of from fourteen to twenty people.)
